(54) Title: METHOD FOR PROTECTING BEVERAGE CAN FROM INSECTS

(57) Abstract: The method is for preventing insects from entering an opening of a beverage can. The method provides for a beverage can (16) that has a lever member (30) with a handle member (32) and an engaging member (34) attached to a top surface (12) of the beverage can (16). A cover member (10) is placed on top of the top surface (12) so that a protection area (27) is placed above a weakened segment (36) of the top surface (12) and an inner opening segment (24) is placed below the engaging member (34). The protection area (27) has a plurality of precut segments (35). With the protection area (27) and the segments (35) placed on top of the weakened segment (36), the handle member (32) is lifted to move the engaging member (34) through the inner opening segment (24) to push a portion of the weakened segment (36) with the segments (35) glue thereto into the beverage can (16) and creating an opening (38) that is covered by the apertures (28) of the protection area (27) to prevent insects from getting into the can (16).

## INTERNATIONAL SEARCH REPORT

International application No.  
PCT/SE 2003/001789

## A. CLASSIFICATION OF SUBJECT MATTER

IPC7: B65D 17/00, B65D 17/34  
According to International Patent Classification (IPC) or to both national classification and IPC

## B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC7: B65D, A47G

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

SE,DK,FI,NO classes as above

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

## EPO-INTERNAL, WPI DATA

## C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
A	DE 19942013 A1 (WIDMANN, ACHIM), 8 March 2001 (08.03.2001), figure 3 --	1-8
A	GB 2304673 A (KENNETH GEORGE BARNES), 26 March 1997 (26.03.1997), figure 5, abstract --	1-8
A	US 5547100 A (JOHNSON), 20 August 1996 (20.08.1996), figures 3,4 --	1-8
A	US 5720412 A (FICKEN), 24 February 1998 (24.02.1998), figures 1-10 --	1-8

Further documents are listed in the continuation of Box C.

See patent family annex.

- \* Special categories of cited documents:
- "A" document defining the general state of the art which is not considered to be of particular relevance
- "E" earlier application or patent but published on or after the international filing date
- "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- "O" document referring to an oral disclosure, use, exhibition or other means
- "P" document published prior to the international filing date but later than the priority date claimed

- "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
- "&" document member of the same patent family
